ne- *pref*

Prevodi se na engleski na razne načine (neposredno ili posredno):

Kraći i pregledniji opis svih tih načina (ukupno 55) nalazi se i na zalistu rječnika.

A. PRIDJEVI

Pridjevi na **ne-** *prevode se na engleski:*

1. **prilogom** not (npr. *nezreo* not mature)
   Komentar:
   Najjednostavniji prijevod hrvatskog ne-, ali ograničen na predikativnu poziciju i vrlo rijedak u atributivu. Dakle: his reaction was not mature, ali ne: his not mature reaction (*nego* his immature reaction)
2. **prefiksom** un- (npr. *nezanimljiv* uninteresting)
   Komentar:
   Najčešći i najneutralniji engleski prefiks negativnog značenja. Može se automatski dodati svakom engleskom pridjevu, osim kada duh jezika pretpostavlja ili zahtijeva druge prefikse (non-, in-). *Tako ovaj prefiks često alternira s* non- *i, mnogo rjeđe, s* in- *(o čemu vidi u komentarima uz 3 i 4). U pridjevima/participima na* -ed *prefiks* un- *je praktički obavezan.*
3. **prefiksom** non- (npr. *neboračkі* noncombatant[25])
   Komentar:
   Gotovo jednako čest i neutralan prefiks poput un-, *ali običniji od njega uz pridjeve niže učestalosti i one iz znanstvenog vokabulara. Ako alternira s* un-, *izražava jednostavnu neutralnu suprotnost značenja bez emocionalnih konotacija (npr.* nonscientific[25]: unscientific *ili* noncooperative[25]: uncooperative). *U nekoliko slučajeva alternira s* un- *uz pridjeve/participe na* -ed i tu *dolazi do razlike u značenju (npr.* nonaligned[25] */nesvrstan/:* unaligned */neporavnan/). *Javlja se, za razliku od* un-, *i pred glagolskom osnovom pridjeva (npr.* nondrip[25], nonskid[25], nonstick[25]). *Često dolazi i pred atributivnu imenicu radi tvorbe pseudopridjeva (npr.* nonattack-[25], nonreduction-[25]), *gdje je* un- *praktički neupotrebljiv. Konačno,* non- *je moguć i pred nekim pridjevskim osnovama na* -ing *(npr.* nonfunctioning[25], nonconflicting[25]).
4. **prefiksom** in- (npr. *neadekvatan* inadequate)
   Komentar:
   Upotreba ovog prefiksa sužena je na pridjeve iz znanstvenog i biranijeg, nekolokvijalnog vokabulara. Osim toga, in- *je danas neaktivan prefiks, dakle ne služi za tvorbu novih pridjeva negativnog značenja. Međutim, kod manjeg broja postojećih pridjeva gdje* in- *alternira* s un-, *oblik na* in- *je ili sasvim istisnuo onog na* un- *(kao* uncredible, uneffable, unexcusable, unexpert) *ili je znatno češći od njega* (unfirm, unexact, unformal, unpossible).
5. **složenim prefiksima** other-than **i** less-than (npr. *nezakonski, izvanzakonski* other-than-legal[26]; *nepametan, ne naročito pametan* less-than-intelligent[26])
   Komentar:
   Oba ova složena prefiksa mogu, kako vidimo, poslužiti da izraze specifična negativna značenja: širokog isključivanja (other-than) *ili približnog, često ironičnog, nijekanja* (less-than).
6. **sufiksom** -less (npr. *nepokretan* motionless)
   Komentar:
   Ovaj sufiks dodaje se normalno imenicama i obično prevodi kao »bez« (ili prefiksom »bez-«, »bes-«), ali u ograničenom broju slučajeva moguć je i prijevod s »ne-« (npr. joyless *neveseo,* lawless *nezakonit,* luckless *nesretan*). *Za dodavanje* -less *nema strukturnih ograničenja, ali postoje stilska. Često, naime, tako nastaju rijetki, knjiški, nategnuti pridjevi kao:* health-less, hasteless, trainless, sportless *itd.*
7. **sufiksnim riječima** -free, -proof, -resistant, -repellent (npr. *nekonfliktan* conflict-free, *nehrđajući* rust-proof, *nepromočiv* water-resistant, water-repellent)
   Komentar:
   Ove skupine riječi dodaju se imenicama ali uz još veća ograničenja nego -less. *Relativno su česte u stručnim i znanstvenim (ali i reklamnim) tekstovima.*
8. **pridjevima i participima** free (of/from), (de)void (of), exempt (from), innocent (of), spared (from), unaffected (by) **pred imenicom** (npr. *neafektiran* free of/from affectation, *neoporezovan* exempt from taxation, *neponižen* spared (from) humiliation)
9. **participima** lacking[35], needing (*odn.* in need of), requiring, calling (for), waiting (for) **pred imenicom** (npr. *nekoncentriran* lacking[35] concentration, *neporavnan* requiring alignment)
   Komentar:
   Indeks ([35]) *upućuje na alternativne riječi/izraze (sa zalista rječnika), dio kojih nisu participi:* with no, of no, without, with low *itd.*
10. **prilozima** inadequately, badly, ill-, under- **pred participom perfekta** (npr. *neprozračen* inadequately aired, ill-ventilated)
11. **prilozima i participima** yet, still, needing, requiring **pred pasivnim infinitivom** (npr. *neotkriven* yet-to-be-discovered[26]; *neporavnan, neprozračen* needing to be aligned/aired)
12. **prilozima** yet **i** still **pred infinitivom neprelaznih glagola** (npr. *nenabujao* yet-to-rise).
13. **izrazima** unlike that of, not involving, not for . . . purposes (npr. *nesudački* unlike that of a judge, *nesudski* not involving (*ili* involving no) court proceedings, *neobrambeni* not for defensive purposes)
14. **pridjevima**
    a) **s infinitivom:** impossibile, hard (*oba s* inf. *vt.*) **i** unable (s inf. *vi.*) (npr. *neprilagodljiva oprema* equipment impossible/hard to adapt)

b) **s imenicom:** incapable (of), unsuitable (for), impervious (to), proof (from), safe (from), secure (from) (npr. *neprilagodljiv* incapable of adaptation, *nepromočiv* impervious to water, *nenaseljiv* unsuitable for habitation)

***15. participima** lacking[35] **i** defying **s imenicom** (npr. *neprilagodljiv* lacking/having no (*ili* of low *itd.*) adaptability, *nestanjiv* lacking thinning-down properties; *nazamisliv* defying imagination)

***16. negativnim participom** not lending (+ itself/oneself to) **s imenicom** (npr. *nenaljepljiv* not lending itself to pasting on)

***17. prijedlozima** beyond **i** past **s imenicom** (npr. *neprilagodljiv* beyond/past adaptation *ili* adaptability)

B. PRILOZI

20. prefiksima un-, non-, in- (npr. *nekomercijalno* uncommercially, noncommercially[25]; *neodređeno* indefinitely, undefinedly)

Za izbor između ova tri prefiksa v. komentare uz **2–4.**

21. prilogom not (npr. *neodređeno* not definitely)

22. složenim prilogom less than (npr. *neodređeno* less than definitely). *Vidi komentar uz* **5.**

23. izrazima s manner, way, fashion (npr. *neodređeno* in an indefinite m/w/f, in an undefined m/w/f, in a m/w/f lacking[35] definition, in a less-than-defined[26] m/w/f)

24. izrazima s quality, condition *itd.* /= ([32])/ (npr. *neodređeno* with an indefinite quality/ /character/appearance, with an undefined q/ /ch/a; in an indefinite condition/state/status/ /form, in an undefined c/s/s/f)

25. izrazima s without, with no (oba + *n*), without being/having (+ p.perf.) (npr. *neodređeno* without defining, without [previous] definition, with no definition, without being/having defined); **odnosno s** refraining from (+ *n*) (npr. *nešablonizirano* refraining from rote/stereotype)

C. IMENICE NA -NJE

Imenice strukture **ne-...-nje** *prevode se na engleski:*

30. prilogom not (+ -ing) (npr. *neodređivanje* not defining)

Komentar:

Ovo je najjednostavniji prijevod, moguć za sve imenice na -nje, *ali u stručnom i službenom engleskom zamjenjuje se, gdje god je to moguće, imenicom koja počinje s* non- (*Vidi i komentare uz* **2, 3, 4, 32 i 34**)

31. pridjevom no (+ -ing, -tion, -ment, -ence *itd.*) (npr. *neodređivanje* no defining, no definition)

Komentar:

I ovaj je prijevod, poput prethodnog, moguć za sve imenice na -nje, *ali uz pomak značenja i neke restrikcije. Tako,* no/not defining is wrong *znači »pogrešno je ne definirati«, s time da je oblik s* no *mnogo rjeđi, a i dvosmislen jer (češće) znači »nikakvo definiranje nije pogrešno«. I dalje:* no definition is wrong *ima oba značenja kao i* no defining is wrong, *dok je* not definition is wrong *nemoguće u engleskom. Konačno, obrazac* no + -ing *normalno se, osobito u stručnom i službenom engleskom, zamjenjuje imenicom koja počinje s* non- (*npr.* nondefinition[25]).

32. prefiksom non- (npr. *neodređivanje* nondefinition[25])

Komentar:

Nedostatak ovakvih prijevoda je u tome što su upotrebljivi samo uz latinske ili grčke osnove, pa prema tome pretpostavljaju vladanje natprosječnim engleskim vokabularom. Samo osoba koja, na primjer, zna da se »odlaganje« prevodi kao postponement, adjournment, deferment, prorogation *može, dakle, obrazovati negativne imenice* nonpostponement[25], nonadjournment[25], nondeferment[25] i nonprorogation[25]. *Osobi skromnijeg vokabulara koja vjerojatno raspolaže samo s anglosaskim* putting off, *prefiks* non- *ne pomaže jer je tvorba* non putting off *nemoguća. Ovu ozbiljnu prepreku proširivanju vlastitog vokabulara možemo ipak lako zaobići kontrastivnim obrascem* failure to + inf, *dakle: neodlaganje* failure to put off (*o čemu vidi i pod* **33**).

33. imenicama failure, failing, neglect(ing), omission, omitting, inability **s infinitivom** (npr. *neodređivanje* failure to define, omitting to define; *neplutanje* failure/inability to float)
Komentar:
Prevođenje hrvaske negativne glagolske imenice (**ne-** + vb + **-nje**), *dakle vrlo čestog obrasca, na engleski pomoću protuobrasca,* failure + inf. *ima tu veliku prednost što omogućava zaobilaženje specifične vokabularske jedinice sustavnom parafrazom. Tako se, na primjer, »negutanje« može lako prevesti kao* failure/inability to swallow, *umjesto specifičnim medicinskim terminom* noningestion[25], *čime se znatno povećava potencijal i skromnijeg vokabularskog fonda.* (*Vidi i komentar uz* **32**)

34. imenicama absence (of), lack (of), nonoccurrence (of), nonpractice (of), omission (of), refrainment (from), avoidance (of), dispensal (with), noninvolvement (in), prevention (of) **pred drugom imenicom** (npr. *neodređivanje* lack/absence of definition, refrainment from definition)

35. glagolskim imenicama omitting, refraining (from), dispensing (with), preventing, withholding **pred drugom imenicom** (npr. *neodređivanje* refraining from definition, dispensing with definition; *nepriznavanje* withholding recognition)

36. imenicom leaving **s negativnim participom prošlim** (npr. *neodređivanje* leaving undefined)

D. IMENICE NA -OST

43. imenicama absence (of), lack (of), want (of), need (of, for), scarcity (of), shortage (of), nonoccurrence[25] (of), omission (of), loss (of), deprivation of **pred drugom imenicom** (npr. *neodređenost* lack/absence *itd.* of definition)

44. imenicama refrainment (from), freedom (from) **pred drugom imenicom** (npr. *neobveznost* freedom from obligations/commitment/involvement)

45. pridjevom no (+ *n*) (npr. *neodređenost* no definition)

49. imenicama impossibility (of), inability (of), incapacity (for), incapability (of), incapableness (of), unsuitability (for), unsuitableness (for) **s drugom imenicom** (npr. *neodredivost* impossibility of definition, *nerazmjestivost* inability of repositioning, *nerazuvjerljivost* incapacity for reconsideration, *nenaseljivost* unsuitableness for habitation)

50. istim imenicama (v. **49**) **s infinitivom** (npr. *neodredivost* impossibility to define, *nerazmjestivost* inability to reposition, *nerazuvjerljivost* incapacity to reconsider)

51. imenicama imperviousness (to), unsusceptibility (to), unresponsiveness (to), unreceptiveness (to) **s drugom imenicom** (npr. *neizobrazivost* imperviousness to training, *neumoljivost* unresponsiveness to entreaties)

52. imenicama absence (of), lack (of), want (of) *itd.* (v. **43**) **pred:**
(a) **imenicama na** -ability, -ableness (npr. *neodredivost* lack of definability)
(b) **imenicama:** properties, capacity, capabilities, performance (npr. *nekalavost* absence of splitting properties, *nepreraspodjeljivost* lack of redistribution properties)
